## Industry Priorities

Top three issues (both science and non-science related) facing your industry sector at this time?

1: \_\_\_\_\_

2: \_\_\_\_\_

3: \_\_\_\_\_

- Of these three which could be answered through research? Please provide some details about what such a project should include:
- For non-science related priorities what activities would you like to see from the PEI Aquaculture Alliance?
- Of these three which can be best addressed **by the industry**, with program support (i.e. similar to the Productivity Improvement Fund (PIF) or Strategic Oyster Aquaculture Renewal (SOAR) Program)? Please provide some details about what such a program should cover.

## **Certification and Sustainability Verification**

- Have any of your customers requested proof of sustainable (e.g. “environmentally friendly”) operating practices from you? If so please describe what documents you provided.
  
- Are you interested in learning more about certification?
  
  
  
  
  
  
  
  
  
  
- Are you interested in a generic Environmental Management Plan, including policies and basic record keeping systems?

## **Safety Training**

- Over the last several years the Alliance has obtained funding to provide training in First Aid, WHMIS and Forklift Driver Licenses. Are there any safety related training courses you would like to take / provide for your staff?

Do you have any other comments or suggestions?
