

The PEI Aquaculture Alliance (PEIAA) is a non-profit, umbrella organization representing the PEI Cultured Mussel Growers Association (CMGA), the Island Oyster Growers Group (IOGG), and the PEI Finfish Association. A proactive unified voice, the PEIAA advocates on behalf of its members, the aquaculture industry of PEI.

Providing a common voice gives the individual industry members more power and influence, for example, when providing input to policy makers when regulatory changes that impact the industry are being considered
